

Our Vision

To provide the best possible environment to support each family and to enable their very young children with special needs and/or disabilities to maximise their individual potential.

Our Mission

To provide:

- babies and pre-school children with special needs and / or disabilities in Havering with opportunities for individual development and learning through play and therapeutic experiences,
- families of children with special needs and/or disabilities with support and information which meets their individual needs in a caring environment and
- dedicated, specialist staff to achieve the best possible outcomes for the children and their families.

Our Values

- We seek to be an open and inclusive organisation, promoting diversity and equality
- We support and welcome families from all communities and believe they should be accorded equal worth regardless of disability, gender, ethnic origin, religion, sexual orientation and social class.
- We believe parents and families should be consulted by service providers and actively involved in participation so that they can help develop local services. They should be listened to and treated as equal partners by professionals and policy makers.
- We recognise that many parents and families are excluded from participating in society at both an economic and social level.
- We believe that parents and families should be provided with a full range of relevant, up to date information and have access to high quality services.
- We support parents and families in making choices that are appropriate to their child's needs.
- We believe that service should be inclusive and designed to maximise independence and the full potential of disabled children.
